Jake Rowland

Software Developer

5600 SMU Blvd #2430 ◊ Dallas, TX. 75206 ◊ Cell: (817) 899-8965 ◊ jwrowland@smu.edu

Software developer with 1 year of experience creating and implementing solutions. I have succeeded in both iterative and agile/scrum development cycles on proprietary and franchise software. I developed, and implemented rewards programs for applications, and added user requested features for wish lists and watch lists.

Strengths:

Project Design	Project Scoping	Project Management	Project Startup
Software Engineering	Software Development	Software Design	VCS
C/C++	Java	Python	Kotlin
Unreal Engine 4	Windows	OSx	Linux

Work Experience

Bottle Rocket

Software Developer

May-Aug 2018
+
May-Aug 2017

Mobile and web development studio. Worked closely with Pizza Hut, OWN, Qdoba, and others on consumer and industry technology. Included full front end and back end support.

I worked in an agile development cycle performing api mapping, user interface design, testing, and maintenance for released software. I implemented an app side rewards program that promoted consumer engagement and purchases. I discovered and fixed asynchronous issues that effected accessibility to applications for users.

Achievements

SMU Guildhall's 28th Cohort

» Graduating from Southern Methodist University in May, 2019 with GPA of 3.8

» Accepted to Masters Program in Interactive Technology - beginning Fall/2019

Upsilon Pi Epsilon

Upsilon Pi Epsilon is a nationally recognized computer science honor society created in 1967. Members must remain in the top 35% for all college work and complete at least 45 semester hours. I have held the elected office of treasurer of this organization during my junior and senior years.

Education

Southern Methodist University   BS In Computer Science & Mathematics

Completed undergraduate classes in May 2019 with a GPA of 3.8. Will be continuing on to a Masters in Interactive Technology at SMU Guildhall. Completed courses in Algorithm Engineering, Advanced Application Programming, and Software Project Management and Development
